3. A permit for a special use in the R-C district shall only be granted when it is clearly obvious that such use will be harmonious with the district and will not create undue pedestrian or vehicular traffic hazards or any display of signs, noise, fumes, or lights that will hinder the normal development of the district or impair the use, enjoyment and value of adjacent land or buildings.

 7. That, for reasons fully set forth in the findings of the Zoning Board, the granting of the variance is necessary for the reasonable use of the land or building and that the variance as granted by the Zoning Board is the minimum variance that will accomplish this purpose.
 8. That the granting of the variance will be in harmony with the general purpose and intent of this ordinance, and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.
 9. In granting any variance, the Board shall prescribe any conditions that it deems to be necessary or desirable.
- E. Referral to Planning Board. The Zoning Board shall refer to the Planning Board such matters as are required by this ordinance and any other pertinent matters for

Refer to Section 11.3 of this ordinance. Every decision of the Zoning Board shall be by resolution which shall contain a full record of the findings of the Zoning Board in the particular case. Further, every decision of the Zoning Board shall be in writing and shall include the reasoning for the decision, and shall be filed in the Zoning Board's office and in the office of the Town Clerk, and shall be of public record.
- G. Votes Necessary for a Decision.
